SUMMARY

Second-year Bachelor in Health Informatics student at Kathmandu University with a 4.0 GPA across three semesters. Experienced in Python development, delay-tolerant networking, IoT sensor systems, and digital health system design. Strong interest in applying data and technology to expand healthcare access in underserved communities.

EDUCATION

Bachelor in Health Informatics (BHI) 2024 – Present
Kathmandu University, Dhulikhel, Nepal
2nd Year, 2nd Semester. Class topper with a 4.0 GPA across three semesters.

PROJECTS

Chronic Disease Management & Tracking System Team Project
• Collaborated with the Health Informatics department to design a system for clinics to track and manage chronic disease patients.
• Presented the project as part of a formal defense in Teku, Kathmandu; work was featured in a departmental LinkedIn post.

Delay-Tolerant Network (DTN) Training Project May 2026
• Selected with two peers for a 5-day UNESCO-affiliated ICTP workshop on DTN solutions for environmental monitoring.
• Gained hands-on experience with Raspberry Pi networking, ION DTN software, and IoT sensor systems, including the Trishuli River sensor network.

Independent Research Paper In Progress
Currently finalizing a research paper ahead of submission for publication.

EXPERIENCE & ACTIVITIES

Telemedicine Field Visit, Rasuwa 2025
Observed telemedicine services in practice with the Telemedicine Society of Nepal as part of the program's first-batch cohort.

Volunteer, 19th IFIP WG 9.4 Conference May 2026
Volunteered at "Reorienting the Digital Ethics Ontology for a Sustainable Future," hosted at Kathmandu University.

STEAM Material Competition, Ministry of Education, Science and Technology Dec 2025
Presented an original idea before a review panel at a national innovation competition.

SKILLS

Programming & Data: Python, MySQL, Django
Networking & Systems: Delay-Tolerant Networking, IoT Sensors, Raspberry Pi
Domain: Health Informatics, Digital Health Systems, Clinical & Public Health Data Workflows

HONORS & AWARDS

Bishwo Nath & Nanda Kumari Adhikary Endowment Scholarship, Kathmandu University School of Engineering, Jul 2025
4.0 GPA, across three semesters, Health Informatics program
